Our Winter Session ENGL307 and 308 sections are just about full. Wanted to make you aware that we are also offering ENGL340 Topics in Professional & Technical Writing. Several majors are allowing this as a substitute for ENGL308.

**Winter Session**  
**ENGL340 SEC 101 (787) Topics in Professional and Technical Writing**  
Fully Online with Instructor Roberto Reyes

In this course, we will practice avenues of digital writing - from developing web sites and writing for social media to multimedia composition such as digital portfolios, interactive presentations, and infographics. To do this work, we will examine what best practices for digital writing currently exist, and how those practices came to be. This will inform us how our writing changes when moved into digital spaces, enabling our own writing to evolve no matter which technologies emerge for the future. ----

Thank you,
