Dear Advisors,

**ENGL107A** (UACH or UAWP 106.0-106.9 placement score): It was just brought to my attention that students were receiving error messages when attempting to add ENGL107A SEC 005. The courses were not set up correctly in the system and this is why students’ couldn’t add. This section did not fill during last week’s preschedule run for this reason. We have more than enough seats for the number of students who placed into the course. Although it might require schedule changes, I strongly encourage you all to inform your International students that they should be able to find a seat for the spring semester.

**ENGL101** (UACH or UAWP 101.0-101.9): It is off sequence during the spring, but we do have a limited number of offerings. 25 seats were just released and another 10 will be released later today. If we are able to open any additional seats, I will post another message to this list. This course will be offered online and in person during summer sessions I and II.

**ENGL109H** has filled and no additional sections will be opened. This course will be offered in person during summer pre-session and online and in person during summer sessions I and II.

Thank you,
Mónica De Soto Vega
