Introduction to Archaeological Fieldwork, ANTH 304, Fall 2015
Instructor: Dr. David Romano
Day/Time: 3:30-4:45 PM
Location: Mines & Metallurgy, Rm 213

Description: The objectives of the course include an introduction to the practical, theoretical and historical aspects of archaeological fieldwork in the modern day. Based on field examples from around the world discussion will revolve around the methods utilized in field and lab situations and the expected outcomes. Scientific methods of archaeological research are considered. Visits to U of A scientific labs undertaking archaeological research are scheduled as a component of the course. The course has no prerequisites.
